

Springtime Seminars

For Animal Lovers

LIVING WITH WILDLIFE

Thursday, April 27, 2017

Have you ever had an encounter with wildlife leaving you unsure who, or even if, you should call someone? Do you want to know how to better live in harmony with the wildlife in your backyard? What happens if they are a little too close for comfort? Elease McConnell, Animal Control Officer for the Town of Manchester, will come and talk to us about Living with Wildlife, and what the Animal Control Officer's duties are with respect to wildlife issues. She will also explain the State of Connecticut's Rabies Protocol for pet owners and animal bite victims.

Come with your springtime wildlife questions!

HOW TO SPEAK DOG

Thursday, May 18, 2017

Your dog is constantly communicating with you—but are you paying attention to what they're saying? The ability to read your dog's body language and sounds they make will strengthen your bond and relationship. This presentation will provide you with the knowledge to recognize the slightest cues your dog is using to communicate how they are feeling.

When you learn to Speak Dog you can use this new knowledge to make your dog's world a happier place.

HELPING COMMUNITY CATS

Thursday, June 22, 2017

Have you ever wondered about the roaming cats in your neighborhood? Who do they belong to? Who is caring for them? Where do they eat and sleep? What happens if they are sick or injured? How can we prevent more kittens from being born outside? To learn the answers to these questions and many more, please join us for an informative evening. Our panel representing members from the animal welfare, animal control and veterinary communities will share their expertise and ways you can get involved.

Help the cats right in your own neighborhood!

*Seminars are
6:30-8pm at*

**OUR COMPANIONS
VALERIE FRIEDMAN
PROGRAM CENTER**

34 Sanrico Dr, Manchester, CT
