

## **Animal Friendly Food Policy**

Our Companions Animal Rescue believes all animals deserve humane treatment and our organization is committed to advocating for the protection and welfare of all animals. Our Companions believes it would be inconsistent for an organization dedicated to saving animals to serve animal products as food for people during mission-related meetings and activities.

Accordingly, all food purchased by Our Companions for events and meetings will be vegan. During social gathering in restaurants, care will be made to select venues where vegetarian and vegan options exist so guest can be provided with meat-free meals. Additionally, for events featuring or connected to Our Companions where food is funded by another party, all efforts will be made to have humane food choices, and Our Companions will recommend vegetarian and vegan food.
